

International Journal of Mathematics and Computer Science

Author Index

Vol. 12, 2017

Erkan Cimen, Yilmaz Ekinci , Numerical method for a neutral delay differential problem.....	1
Loren Anderson, Matthew DeVilbiss, Sarah Holliday, Peter Johnson, Anna Kite, Ryan Matzke, Jessica McDonald , The Edge Grundy Numbers of Some Graphs....	13
John Blythe Dobson , A matrix variation on Ramus's identity for lacunary sums of binomial coefficients.....	27
Abdullah Idris Enagi, Musa Bawa, Abdullah Muhammad Sani , Mathematical Study of Diabetes and its Complication Using the Homotopy Perturbation Method..	43
Philip Feinsilver , Sums of squares of Krawtchouk polynomials, Catalan numbers, and some algebras over the Boolean lattice.....	65
Abdullah Idris Enagi, Musa Bawa, Abdullah Muhammad Sani, Yahya Aliyu Badegi , Stability Analysis of a Deterministic Compartmental Model of Tuberculosis with Effect of HIV/AIDS on the Progression from Latent Class to Infectious Class..	85
Abdullah Idris Enagi, Mohammed Olanrewaju Ibrahim, Ninuola Ifeoluwa Akinwande, Musa Bawa, Abdullahi A. Wachin , A Mathematical Model of Tuberculosis Control Incorporating Vaccination, Latency and Infectious Treatments (Case Study of Nigeria).....	97
Reza Farhadian, Nader Asadian , On the Helmert Matrix and Application in Stochastic Processes.....	107
Lauren Heller, Andrew Sack , Unexpected Failure of a Greedy Choice Algorithm Proposed by Hoffman.....	117
